

JOHN KRAJEWSKI

JK Energy Consulting LLC

John Krajewski is an engineer with more than 25 years of experience in the electric power industry. His expertise spans many areas, including electric generation resource planning, transmission access policy and rate-setting, cost of service and rate design for wholesale and retail electric utilities, and reliability compliance. For the past nine years, John has been president of his own consulting firm, JK Energy Consulting, LLC, in Lincoln, Nebraska, which has served more than 60 clients in six states since its inception.

John earned a Bachelor of Science degree in mechanical engineering from the University of Nebraska – Lincoln and has been a registered Professional Engineer since 1999. He has held many roles in the industry, and he is currently a member of the Southwest Power Pool Cost Allocation Working Group. John has served on several working groups and task forces over the last seven years, representing the Nebraska Power Review Board.
