

**BONNIE JANSSEN**  
**Michigan Public Service Commission**

Bonnie Janssen is a Public Utilities Engineer Specialist in the Energy Markets Section for the Michigan Public Service Commission. Currently Bonnie serves as the state's expert on interstate natural gas pipelines cost of service, rates and tariffs, and as the State's expert on transmission and capacity issues pertaining to MISO. She serves as a co-chair of the Organization of MISO States (OMS) Resource Adequacy Working Group and on Michigan's Energy Emergency Team. Bonnie's past responsibilities as an Engineer Specialist for the Commission have included the following: filed

testimony and served as an expert witness in complex cases such as natural gas and electric rate cases including cost of service, rate design, sales forecasts, tariffs, infrastructure, capacity and refund mechanisms, and tariffs; gas cost recovery plan and reconciliation cases, natural gas pipeline, storage rates, and purchase contract cases. She served as the State's expert on the technical standards for gas service, customer attachment programs, electric and natural gas tariffs and infrastructure replacement programs. Bonnie graduated from Michigan Technological University with a BS in geological engineering.
