DIRK MAHLING

Alliant Energy

As vice president of technology with Alliant Energy, Dirk is responsible for overseeing all facets of the company's technology strategies and development, including information, operations, cybersecurity, and emerging technology. He defines, communicates, and executes a technology strategy that aligns with and enables Alliant Energy's business strategy. Dirk oversees all technical aspects of the company and provides vision and sets direction that enables the enterprise to achieve its strategic technology and business objectives through the use of technology. Dirk joined Alliant Energy after several years as chief information officer with Seattle City Light. He has a broad and successful background of implementation, innovation, and executive leadership both inside and outside the energy industry. Previous positions have included that of senior vice president with Alstom Grid North America and vice president of operations technology with Constellation Energy. He has had leadership roles in two start-ups and consulting positions with Ernst & Young and A.T. Kearney. Dirk earned a Ph.D. in Computer and Information Science from the University of Massachusetts. He also has a master's degree in industrial psychology from the Brunswick Institute of Technology in Germany.
