UNIVERSITY OF WISCONSIN-MADISON

JODY ARENDT

WEC Energy Group

Jody Arendt is currently director of fuel supply for WEC Energy Group. He is responsible for the commercial operations of the Bluewater Gas Storage field as well as natural gas planning, contracting, strategy, and supply for 8 natural gas utilities and the gas-fueled plants for We Energies and Wisconsin Public Service. In addition, Jody oversees the planning, contracting, strategy, logistics, and supply for coal, biomass, and emission control chemicals for We Energies and Wisconsin Public Service plants. Jody

graduated from Marquette University with a bachelor of science in electrical engineering and the University of Wisconsin-Oshkosh with a masters of business administration. He has 28 years of experience in various aspects of the utility business including engineering, project management, business planning and budgeting, and gas and electric operations. He previously has held positions of increasing responsibility, including project engineering/management, director of business planning, director of power supply, and general manager of energy supply and control.
