FRANK GREB
Slipstream Group, Inc.

As chief operating officer of Slipstream Inc., Frank Greb brings a wealth of project and business management experience to his leadership role. Prior to joining Slipstream, Frank managed energy-related projects and businesses for more than twenty years at RMT, a renewable energy engineering and construction firm, and at its parent company Alliant Energy. Under Frank's leadership, RMT designed and constructed some of the largest utility-scale wind and solar energy facilities across the U.S. In the early 1990s, Frank developed and implemented the shared

savings program for Alliant that resulted in the investment of more than \$60 million of energy efficient technologies in hundreds of commercial and industrial facilities. Frank is a past chairperson of the Energy Center of Wisconsin's Research Advisory Committee and past member of the Electric Power Research Institute Power Electronics Task Force. He received a bachelor's degree in chemical engineering and a master of business administration, both from the University of Wisconsin-Madison.
