

ERIC MYERS

Ranger Power

Eric Myers is Ranger Power's vice president of transmission and market strategy. He comes to Ranger Power with more than 25 years in the electric power sector, including roles in environmental and transmission policy, power and fuels origination, wind and solar development, merchant and regulated transmission, and environmental compliance. Most recently Eric was director of transmission business development for SWCA Environmental Consultants where he was responsible for client development and project management in the commercial transmission and utility markets. Previously he was manager of business development for American Transmission Company and director of environmental policy and manager of origination for Duke Energy. Eric began his career as environmental and energy policy strategist at the Edison Electric Institute. He holds degrees in environmental and political science from the University of Wisconsin-Madison and an MBA from the George Washington University.
