

AKANKSHA CRAFT

Public Service Commission of Wisconsin

Akanksha Craft is a civil servant with a decade of experience in the energy sector. She has worked for the Public Service Commission of Wisconsin (PSCW) in various roles and currently serves as the PSCW's director of the bureau of electric analysis and engineering. This role provides her with opportunities to engage with utility resource and transmission plans as well as regional markets-related matters. Her past roles with the PSCW have included working in regional markets and on Midcontinent Independent System Operator (MISO) issues. In those capacities, she served as the vice chair for Organization of MISO States' resources working group. Additionally, she worked with the Institute of Electrical and Electronics Engineers to promote development of national safety standards to the Government of India. Akanksha is passionate about her continuing contribution to ensuring reliability and resource adequacy as the energy grid transitions. She holds a master of science in electrical engineering from State University of New York at Buffalo.
