

## **JODY ARENDT**

### **WEC Energy Group**

Jody Arendt is director of planning for WEC Energy Group. In this role, he is responsible for market settlements, fuel cost planning for both Wisconsin Public Service (WPS) and WE Energies, gas strategy, and WEC infrastructure acquisitions. Additionally, Jody is responsible for long range planning which includes conceptual design, economic analysis, and technical support for regulatory approvals of large projects including the Generation Reshaping Plan through which WEC Energy group looks to eliminate coal as an energy source by 2032 while adding more than 3800 MW of carbon-free generation. Jody began his career at WEC Energy Group with WPS. He has experience in various aspects of the utility business including engineering, project management, business planning, and budgeting. He has held positions of increasing responsibility within WEC, including project engineer, engineering group leader, project management group leader, director of baseload, director of business planning, director of WPS power supply, and general manager of energy supply and control. Jody holds a bachelor of science degree in electrical engineering from Marquette University and a Master of Business Administration from University of Wisconsin-Oshkosh.
