

**JEFF RIPP**  
**Alliant Energy**

Jeff Ripp is director of regulatory strategy and solutions with Alliant Energy. He is responsible for the development regulatory strategies for state and regional jurisdictions to ensure successful outcomes consistent with Alliant’s corporate strategy and operating plans. He coordinates and directs the activities related to resource planning and transmission planning, including regulatory strategy, to advance Alliant’s renewable energy transition while fostering relationships with regulators and external stakeholders. Prior to joining Alliant, Jeff worked for the Public Service Commission of Wisconsin as an administrator in the divisions of energy regulation and water; he was a program evaluation supervisor with the Wisconsin Legislative Audit Bureau; he served as legislative Staff in the U.S. House of Representatives; and he was an environmental chemist with the Wisconsin Department of Natural Resources. Jeff is member of the Edison Electric Institute’s state regulatory affairs executive advisory committee and the Wisconsin Valley Improvement Company’s board of directors. He received a BS in chemistry and environmental studies and an MS in water resources management from the University of Wisconsin-Madison.
