DELANIE BREUER **Fredrikson P.A.**

Delanie Breuer is an experienced lawyer, helping clients navigate the complexities of government regulation. She has worked with a variety of state and federal agencies and specializes in energy and environmental permitting, regulation, and litigation. She has particular expertise permitting large, energy-generating facilities including wind, solar, and battery systems and can assist through all stages of the process, from preliminary due diligence and application preparation to post-permit litigation. Her previous roles with the Public Service Commission of Wisconsin and as chief of staff at the Wisconsin Department of Justice, combined with her technical experience as a mechanical engineer in the energy and manufacturing industries, uniquely equip her to be an effective legal partner. Her thorough understanding of agency operation and the relationships she maintains with regulators and trade associations are very beneficial when assisting her clients. Delanie enjoys the challenge of representing clients in the ever-changing regulatory environment. She is often tapped to speak on new or emerging environmental regulations, including per-and polyfluoroalkyl substances (PFAS) and microplastics. Delanie received a BS in mechanical engineering from the University of Wisconsin-Platteville and a JD from University of Wisconsin Law School.
