

ANDREW BURNHAM **Stantec**

As vice president and the leader of management and technology consulting with Stantec, Andrew Burnham brings extensive experience conducting and overseeing cost of service allocations, financial planning analyses, and feasibility studies. His expertise includes rate studies, capital funding optimization, economic impact analysis, affordability analysis, business case evaluation, life cycle and replacement cost analysis, benchmarking, and technology planning and implementation. In the past five years alone, Andy has been involved with more than 500 studies for more than 150 local governments and supported clients in the issuance of more than \$4 billion of debt financing for projects. He has also provided expert testimony for utility rate-related regulatory proceedings in multiple states and before the Federal Energy Regulatory Commission. Andy is actively involved in multiple industry groups and recently served as a contributing author in the latest edition of AWWA Manual M1 – Principles of Water Rates, Fees and Charges.
