

CHRISTINE DeMASTER **Trilogy Consulting**

Christine DeMaster is principal and senior consultant with Trilogy Consulting. She has been a consultant to local governments and utilities since 1997. While her work experience varies widely — from setting water and sewer rates and impact fees to downtown and corridor redevelopment plans, municipal consolidation studies, utility mergers, and economic impact analyses — the common theme has been a focus on helping local governments and utilities develop fair and equitable long-term plans and policies. Christine is a registered Municipal Securities Rulemaking Board, or MSRB, Municipal Advisor and is certified through passing the Series 50 Municipal Advisor Representative Qualification Exam. She holds a master's in urban planning from the University of Wisconsin-Milwaukee and is a member of the national and Wisconsin chapters of the American Planning Association and the Wisconsin Water Association.
