

DAVID STRIFLING

Marquette University

David Strifling is an associate professor with Marquette University Law School ("School"). He is the director of the School's Water Law and Policy Initiative and the faculty advisor to the Environmental Law Society, a registered student organization at the School. Using an interdisciplinary and collaborative approach, the Initiative seeks to assess the legal and regulatory aspects of water policy, to pursue opportunities for information exchange and collaboration, and to provide the means for interested persons to become

informed on legal and policy aspects of critical water issues at the local, national, and global levels. Prior to joining the School, David was Of Counsel at Quarles & Brady LLP, focusing on environmental compliance and litigation. From 2010-2012, he served as a Freedman Teaching Fellow at the Temple University Beasley School of Law. He began his legal career as clerk to former Wisconsin Supreme Court Justice David Prosser. Before becoming an attorney, David spent five years as a civil and environmental engineer with a focus on water supply management and wastewater conveyance and treatment. He continues to be a licensed Professional Engineer in Wisconsin. At the School, David's scholarship focuses on the analysis and design of regulatory structures that protect human health, safety, and the environment. His work has been published in numerous law journals. David earned an LLM from Harvard Law School, a JD from Marquette University Law School, and a BS in civil and environmental engineering from Marquette University.
