NATE MELBY

Dairyland Power Cooperative

Nate Melby is vice president and chief information officer with Dairyland Power Cooperative. He is responsible for leading the strategy, development, and implementation of information technology initiatives and systems that align and advance Dairyland's business/operations strategies. Nate also is fire chief for the Town of Campbell, Wisconsin fire department and serves on the board of directors of the

Wisconsin State Fire Chiefs Association. Prior to joining Dairyland, he led information security for Ingersoll Rand (La Crosse, Wisconsin). He also held other positions in global telecommunications engineering and architecture, data communications, and information technology for Trane and American Standard Companies. Nate is co-author of the internationally best-selling book *The AI Advantage: Thriving Within Civilization's Next Big Disruption*. In 2024, Nate earned the Wisconsin CIO of the Year ORBIE award in the Large Corporate category; in 2025, he was a National CIO of the Year finalist; and he is a 3-time CIO 100 winner. Nate has a bachelor of science in information systems from the University of Wisconsin-La Crosse, an MBA with an emphasis in technology and training from the University of Wisconsin-Whitewater, and a Ph.D. in information systems from Nova Southeastern University (Florida), specializing in information security and telecommunications. He also earned a Certificate of Management Excellence from Harvard Business School and completed the Tuck School of Business at Dartmouth's Business Engagement for the Security Professional (BESP) executive program.
